<http://www.aerofiltration.co.in/>

We are renowned organization engrossed in manufacturing and wholesaling of Air Curtain and Safety Cabinet which is known for its high performance, functional efficiency, durability and superior quality.

About Us

Established in the year **1999**, **Aero Filtration Equipments** is manufacturers and wholesaler of Air Curtain and Safety Cabinet. Our offered product range comprises of Air Curtain, Bio Safety Cabinet, Fan Filter Unit and many more. Owing to their functional efficiency, reliability and high performance, these offered products are widely recommended and acclaimed. Together with this, these are well tested before finally getting shipping at the premises of our customers. Also, their wide applications in numerous industrial applications have earned us massive appreciation in this nation.

Since we have established our base in this highly competitive market place, we have been capable of accomplishing a huge customer base all across the nation by offering a broad and defect free plethora of products to the market. This has happened because of the immense support which is presented to us by our fully equipped infrastructural facility. Divided into a range of subdivisions which comprises production unit, procuring unit, warehousing & packaging unit and multiple other units, our personnel' harmonized functionality and dedicated efforts have enabled to undertake our business operations in a trouble free manner.

Under the guidance and direction of our guide **Mr. Deepak Chirmade**, we have acquired massive reputation and satisfaction of or customers. His wide knowledge and intelligent business strategies have assisted us in attaining all our...
